PROFESSIONAL EXPERIENCE

HNG COHORT 14.0

Frontend Development Intern (Virtual)

Nigeria (Remote)

April 2026 – Present

- Built a responsive task management web application using React, delivering multiple UI components and completing structured project iterations.
- Worked in a remote environment using Slack for task coordination and feedback-based iteration.
- Completed frontend tasks across multiple evaluation stages in a structured, deadline-driven program.

INDEPENDENT NATIONAL ELECTORAL COMMISSION (INEC) HQ

ICT Intern

Maitama, Abuja

June 2025 – March 2026

- Participated in software planning and requirement gathering sessions using Agile (Scrum) methodology.
- Drafted Software Requirements Specification (SRS) documents for internal digital solutions.
- Collaborated with team leads to define user stories, acceptance criteria, and product backlog items.

INTERSWITCH GROUP

Tech Job Shadowing Participant (Virtual)

Victoria Island, Lagos State

April 2025 – August 2025

- Shadowed tech professionals to understand software development and digital product workflows.
- Gained insights into real-world applications of technology in payments, infrastructure, and system design.
- Developed core skills in self-leadership, time management, and career growth through curated learning.

Project Experience

- **Bianca Beauty – React Web App** <https://bianca-beauty.vercel.app/>
 - Built a React-based beauty brand web app with category-based product browsing and seamless shopping flow.
 - Designed a responsive UI using React, Tailwind CSS, and Vite for consistent cross-device experience.
 - Implemented a functional cart with item updates and checkout flow, ensuring smooth navigation and confirmed payments.
- **Healing Harbour – React Web App**
 - Designed and developed a responsive therapy booking web app using React and Firebase, enabling users to discover therapists, book sessions, and track appointments.
 - Implemented real-time booking status updates with Firebase Firestore for seamless user interaction.
